Professional Summary

Computer Science and Engineering student with hands-on experience in full-stack web development, real-time applications, database-driven systems, and API integration. Skilled in React.js, Node.js, Express.js, MongoDB, Django, Python, Java, and JavaScript. Completed a virtual Full Stack Development internship at CodTech IT Solutions and developed Nexus Chat, a Student Management System, and a Grammar Assistant.

Education

Bachelor of Technology (B.Tech) in Computer Science and Engineering	2024 – 2027
<i>Siliguri Institute of Technology, Siliguri, West Bengal</i>	
Diploma in Computer Science and Technology	2021 – 2024
<i>Siliguri Government Polytechnic, Siliguri, West Bengal</i>	

Experience

Full Stack Development Intern — CodTech IT Solutions	Nov 2025 – Dec 2025
---	----------------------------

Virtual Internship

- Developed a full-stack real-time chat application with secure authentication and real-time messaging functionality.
- Implemented frontend and backend features for authentication, real-time communication, database operations, and application functionality.
- Applied REST API development, database management, debugging, testing, and problem-solving skills during project development.

Projects

Nexus Chat

React.js, Node.js, Express.js, MongoDB, Socket.IO

- Developed a full-stack real-time chat application with user authentication, one-to-one messaging, online presence, and a responsive UI.
- Implemented secure authentication using JWT, HTTP-only cookies, and bcrypt password hashing.
- Built RESTful APIs using Express.js and Mongoose for user management, message persistence, profile updates, and conversation history.
- Integrated Socket.IO for real-time messaging, online-user tracking, reconnection, and duplicate-message prevention.
- Integrated Cloudinary for image uploads and used Zustand, Tailwind CSS, and DaisyUI for state management and responsive UI.
- Implemented rate limiting, input validation, CORS configuration, protected routes, and environment-based configuration.

Student Management System

Python, Django, HTML5, CSS3, JavaScript, SQL

- Developed a full-stack, database-driven Student Management System for managing and organizing student information.
- Built backend functionality using Python and Django with database-driven application logic.
- Developed interactive user interfaces using HTML5, CSS3, and JavaScript.
- Implemented CRUD operations using Django ORM and SQL for structured data management.

Grammar Assistant

HTML5, CSS3, JavaScript, Gemini API

- Developed a web-based Grammar Assistant to help users identify and improve grammatical errors in written content.
- Built an interactive and responsive interface using HTML5, CSS3, and JavaScript.
- Integrated the Gemini API to analyze user-provided text and generate grammar corrections and feedback.
- Used JavaScript for API requests, dynamic content updates, and displaying generated responses.

Technical Skills

Programming Languages: C, Java, Python, JavaScript

Frontend Development: React.js, HTML5, CSS3, Tailwind CSS, Bootstrap, DaisyUI

Backend Development: Node.js, Express.js, Django, REST APIs, Socket.IO

Databases: MongoDB, Mongoose, SQL, MySQL

Authentication & Security: JWT, HTTP-only Cookies, bcrypt, CORS, Input Validation, Protected Routes, Rate Limiting

Tools & Technologies: Git, GitHub, Postman, Visual Studio Code, Cloudinary, Zustand

Core Concepts: Data Structures and Algorithms (DSA), Object-Oriented Programming (OOP), Operating Systems (OS)
