Professional Summary

Computer Science and Engineering student with experience building full-stack web applications, REST APIs, database-driven systems, and real-time communication features. Skilled in Java, Python, JavaScript, React.js, Node.js, Express.js, Django, MongoDB, and SQL. Completed a Full Stack Development internship at CodTech IT Solutions and one-month technical training in Communication, Navigation and Surveillance (CNS) systems at Airports Authority of India (AAI), Bagdogra Airport. Developed projects including Talksy, a Student Management System, and a Grammar Assistant.

Education

Bachelor of Technology (B.Tech) in Computer Science and Engineering 2024 – 2027
Siliguri Institute of Technology, Siliguri, West Bengal

Diploma in Computer Science and Technology 2021 – 2024
Siliguri Government Polytechnic, Siliguri, West Bengal

Experience

CNS Trainee 7 Sep 2026 – 6 Oct 2026
Airports Authority of India (AAI), Bagdogra Airport

- Studied airport communication, navigation, and surveillance systems, including VHF communication and GAGAN-related technical systems.
- Gained technical exposure to IP networking, TCP/IP, IP addressing, Ethernet cabling, and cable testing.
- Explored airport systems including Flight Information Display System (FIDS), Central Information Display System (CIDS), IP-based CCTV, EPABX, and UPS.
- Learned the working principles of passenger announcement and airport security screening systems.

Full Stack Development Intern Nov 2025 – Dec 2025
CodTech IT Solutions – Virtual Internship

- Developed full-stack application features involving user authentication, real-time communication, and database operations.
- Applied REST API development, database management, debugging, testing, and problem-solving skills during project development.

Projects

Talksy *React.js, Node.js, Express.js, MongoDB, Socket.IO*

- Developed a full-stack real-time chat application with user authentication, one-to-one messaging, online presence, and a responsive user interface.
- Implemented authentication using JWT, HTTP-only cookies, and bcrypt password hashing.
- Built RESTful APIs using Express.js and Mongoose for user management, message persistence, profile updates, and conversation history.
- Integrated Socket.IO for real-time messaging and online-user tracking; used Cloudinary for image uploads.
- Applied input validation, rate limiting, CORS configuration, protected routes, and environment-based configuration.

Student Management System *Python, Django, HTML5, CSS3, JavaScript, SQL*

- Developed a database-driven web application to manage and organize student information.
- Implemented CRUD operations using Django ORM and SQL for structured data management.
- Built interactive user interfaces using HTML5, CSS3, and JavaScript.

Grammar Assistant *HTML5, CSS3, JavaScript, Gemini API*

- Developed a web application that identifies grammatical errors and generates corrections and feedback.
- Integrated the Gemini API and implemented JavaScript-based API requests and dynamic content updates.
- Created a responsive interface using HTML5, CSS3, and JavaScript.

Technical Skills

Programming Languages: Java, Python, JavaScript, C
Frontend Development: React.js, HTML5, CSS3, Tailwind CSS, Bootstrap, DaisyUI
Backend Development: Node.js, Express.js, Django, REST APIs, Socket.IO
Databases: MongoDB, Mongoose, SQL, MySQL
Authentication and Security: JWT, HTTP-only Cookies, bcrypt, CORS, Input Validation, Protected Routes, Rate Limiting
Networking and Systems: TCP/IP, IP Addressing, Ethernet Cabling, Network Troubleshooting Basics, VHF Communication, IP-based CCTV, Airport IT Systems
Tools and Technologies: Git, GitHub, Postman, Visual Studio Code, Cloudinary, Zustand
Core Concepts: Data Structures and Algorithms (DSA), Object-Oriented Programming (OOP), Operating Systems
